

THE ULTIMATE
THIN CLIENT
SOLUTION
WITH AMAZING
PERFORMANCE
ON GREEN
TECHNOLOGY
REVOLUTION

Compared to traditional PC, Thin Client can benefit enterprise users with higher IT management efficiency, productivity and lower IT cost. ACTPL has a complete Thin Client product line for customers, including single display, multi-display and smart card application, moreover, all kinds of Thin Client are durable, quiet and with low power consumption, allowing enterprise users to reduce Total cost of Ownership effectively, Smart Station Thin Client series are available with Smart Linux, Windows CE and Windows Embedded OS.

The Smart Station Thin Client is the smallest, most advanced thin client on the market. It combines great performance, stateless operation, low power consumption, remote management and simple device setup and imaging. This small, lightweight, solid-state unit can be mounted on the back of monitor, making Smart Station Thin Client ideal for any space-constrained environment.

ACTPL is dedicated to be the professional thin client and embedded computing ODM provider for over 14 years and now we are one of the top independent manufacturer of thin client. With providing design, manufacturing and service support functions for embedded computing, ACTPL is your best embedded solution partner to empower more efficiency and safety for your e-World.

Introduction

smart 2370

very low cost

easy to manage

ultra low power consumption

stable & reliable

better performance

fanless design

Smart Station Thin Client Benefits

Green

Lower power consumption for energy saving and reduce CO2 for earth saving.

Our products focus on reducing, reusing and recycling materials used in our manufacturing operations.

Our environment compliance effort including ISO 9001:2008 Certification.

Economy

Lower power cost of ownership (TCO): Save more than 50% off cost than using traditional desktops for energy saving and maintenance cost saving.

Durable

Fanless design for long life span, noise free and higher system reliability. Our thin client components are used industrial level and solid parts for long lifespan.

Secure

Since the software becomes entirely confined to the servers, thin clients are protected from the use of unauthorized software or the introduction of viruses, Unlike PCs and traditional laptops, thin clients are locked down and offer greater security against theft, damage, malware, spyware and viruses.

Secure

Eco Friendly

Power Saver

Maintenance Free
